ABOUT

Named in honor of a pioneering example of Aggie leadership, this annual conference seeks to provide a forum for the exchange of information and experiences regarding the challenges women face in preparing for and pursuing successful technological careers. Discussions are led by dynamic speakers from the Texas A&M community and across the country and designed to inspire the next generation of women leaders in academia, industry, government, and beyond.

Women In Science and Engineering (WISE) is an organization of graduate students, faculty, postdoctoral researchers, and staff at Texas A&M University and sponsored by Texas A&M Science Outreach in the College of Science.
